

## CARE INSTRUCTIONS

Sylvia P selects the best possible fabrics and materials from the world's leading manufacturers, however certain fabrics and materials are more vulnerable to foil loss and fading.

Velvet and Nylon Lycra's are the most resilient fabrics which incurs the least amount of fading. Mesh, Mystique and Holographic Lycra are the most sensitive fabrics which with repeated wear and washing may fade. Perspiration and deodorants may cause fabric to fade.

When combining light and dark colours in your leotard please note that colour transfer may occur even when washing instruction has been followed correctly. Perspiration and deodorants contributes to the colour transfer. Please consider this when deciding on your colour combinations. Sylvia P will not take responsibility for colour transfer so please make careful colour choices.

Crystals can be applied to all fabrics, excessive wearing and stretching may result in crystals falling off. Areas where crystals have been applied may dull slightly due to the heat application.

Below are care and washing instructions to maximize the life of the garment.

### IMPORTANT WASHING INSTRUCTIONS

Turn garment inside out and machine wash garment with a **mild** liquid detergent (woolwash) on a gentle cycle (cold water).

Immediately after washing tumble dry garment on a low or no heat setting.

**DO NOT** Soak, Bleach or use any strong detergent or fabric softeners.

**DO NOT** Iron or Dry Clean

**DO NOT** leave in direct sunlight, leave to dry laying flat or hanging up.

**DO NOT** store garment in plastic bags,leave damp garment folded or rolled up.
